

Angloco

Water / Foam Tender – 1200

OUTLINE SPECIFICATION

Chassis & Cab Iveco EuroCargo 120E25D. 250 hp (185 kW) diesel engine. Automatic transmission. 12,000 kg GVW. Original four-door double cab for fire-fighters.

Fire Engineering

Water Tank 1,000 litre capacity.

Foam Tank 200 litre capacity.

Water Pump Multi-pressure light alloy centrifugal pump nominally rated at 2,000 litre/min at 10 bar. High pressure output for the hose reels. Central suction connection. Two rear facing screw-down delivery valves. Automatic primer.

Foam System Compressed Air Foam System (CAFS). Electronically controlled foam proportioning. One dedicated CAFS delivery outlet.

Hose Reels Two powered rewind high pressure hose reels, one each side at the rear, each with 54 m of 19 mm hose, and jet/spray branch pipe.

Bodywork

Integral bodywork superstructure with three lockers each side, enclosed by roller shutters. Rear pump compartment enclosed by doors. Stowage facilities for fire fighting and rescue equipment. LED lighting for interior illumination.

Equipment / Accessories

Emergency warning lighting. Siren system. Scene lamps. Mains powered top-up battery charger. Floodlighting mast.
