Bespoke Stowage Solutions

Our highly skilled team are on hand at every stage to ensure our vehicles are supplied to the highest quality and built to meet the customer's specification, no matter how intricate.

Angloco has built a reputation for quality, attention to detail and excellent after-sales service and customer care and has been recognised by many international business awards over the years.

By utilising each area of the rear tub, every item needed can be carried on this Ford Ranger.

The rear seats from this vehicle were removed to create further stowage.

In this Toyota Hilux, two of the rear seats were removed creating further stowage whilst still allowing a three person crew.
